## A NOTE FROM THE DIRECTOR

Did you know that the library has a programming committee? We have a talented team of library staff who work together to provide the programming the library offers to our community. This team is comprised of staff from both buildings and from all divisions within the library. They plan our programming months in advance so the schedule can be included in our quarterly newsletter.

In this issue of MCL Notes you will

read about the Teddy Bear Picnic, storytimes, book discussions, concerts, gardening, National Library Week events, the Big Read and our foundation's author fundraiser. If you and your family have never participated in any of these activities, why not give it a try? At the main library or the branch, no matter your age, there is something going on for everyone.

Come visit us and we will show you what we mean.

The Manchester City Library Foundation is pleased to announce that Jane Cleland will be our guest author at the 7th Annual Spring Author Fundraiser on Wednesday April 15th to be held at the main library. Ms. Cleland will be launching her latest book, *Killer Keepsakes*, which is part of the Josie Prescott Antiques Mysteries series. New Hampshire's very own Rebecca Rule will interview Ms. Cleland. Come join us for a lively evening with great food and wine. The event is \$50 per person and sign up begins the week of March 9th. We hope to see you at our Gala Event!

If you cannot attend the event but would still like a signed copy of Ms. Cleland's new book, stop by the information desk at the main library. *Killer Keepsakes* can be purchased for \$24.95 by check made payable to Manchester City Library Foundation. You can then pick up your signed copy beginning April 16th. For more information about Ms. Cleland and her books, visit her website, [www.janecleland.net](http://www.janecleland.net).

## NEW FACES

We are pleased to announce the addition of several new staff members to the library department! Please help us welcome Liam, Lynn, Nicholas, Paula, Phillisha, and Sarah.

## LIBRARY USAGE IN 2008

The libraries are proud and pleased to announce that our usage for 2008 was yet another increase from last year. Our library users circulated 485,166 items in 2008! We challenge you to help us reach 500,000 in 2009. Stop in and get a library card so you can borrow an armful of library materials today!

## 19TH CENTURY NEWSPAPER COLLECTION PRESERVED

The library has completed the microfilming of our 19th century historical newspaper collection previously housed in the non-climate controlled library stacks. The bound newspapers were brittle and in need of preservation before they were damaged beyond repair.

To fund this project, the Manchester City Library Foundation received a grant from the Cogswell Benevolent Trust. The Trust was created according to the will of shoe factory magnate Leander Cogswell of Henniker, to continue his community support for future generations.

The newspapers contain valuable historical and genealogical information about Manchester and New Hampshire. Some of the many titles included on the films are the Weekly Union, Union Democrat, and NH Agriculturist from 1877 through 1890, and the NH Catholic from 1886-1892.

The microfilm will be housed in the New Hampshire Room, our local history collection. For more information about the newspaper collection and for the special hours of the room, call the library at 624-6550 ext. 306, email Cindy O'Neil at [coneil@manchesternh.gov](mailto:coneil@manchesternh.gov), or check the library's website.

## COMING SOON: A NEW COMPUTING SYSTEM

Over the last decade computers have made startling inroads to our lives—libraries are no exception. Computers and the Internet are one of the most popular services libraries offer. As we all become more sophisticated computer users our needs and expectations have outpaced the capabilities of our library computers. That is why we are proud to announce that it's all going to change soon.

Our technology department has been working hard to plan for a brand new public computing system called Useful. Useful computers are specially designed to meet the needs of library computer users. Since each machine checks in regularly with a central server for changes, all machines

*(Continued on page 3)*

(Continued from page 2)

will stay consistent. Centrally-located maintenance means far faster troubleshooting and the end of downtime! We hope that out-of-order signs and crashes will become a thing of the past in the library. When one user logs out, the computer reloads the default profile so the next person gets a clean slate.

Of course this will mean changes to the system we are used to. Useful is a different platform, so while it will do all the things (and more) that our computers do now, there will be differences. Programs like Word, Excel, Internet Explorer will become Word Processor, Spreadsheet, and Web Browser—they will look and behave slightly differently. There will be an adjustment for everyone, so please be patient while our staff gets

trained to handle any questions you may have with the new system.

This change comes courtesy of the Cote Family Estate and represents commitment and support from our Board of Trustees, our Library Foundation, the city's Information Systems division, and all library staff who have worked so hard on its implementation. We anticipate some downtime this spring while we make the change over to Useful. Watch our website for news about days computers will be unavailable, followed by the launch of this new system. If you have questions, concerns, or would like a preview of the new system please contact Lichen at 624-6550 ext. 324, [lrancourt@manchesternh.gov](mailto:lrancourt@manchesternh.gov), or AIM/Y!M [lichenrancourt](mailto:lichenrancourt).

## THE GREAT GATSBY: A SHORT CLASSIC GETS A BIG READ

What do jazz music, Robert Redford, classic cars, and flapper costumes all have in common? They're all part of this spring's celebration, The Big Read: Southern New Hampshire Reads *The Great Gatsby*. The Big

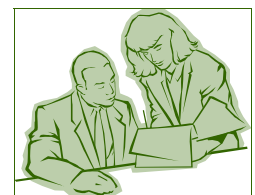

Read is a nationwide initiative of the National Endowment for the Arts, whose goal is to restore reading to the center of American culture.

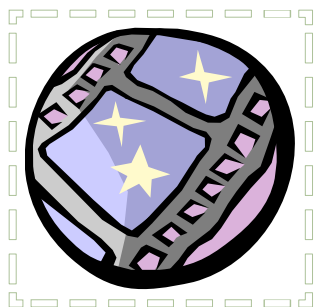

Published in 1925, F. Scott Fitzgerald's *The Great Gatsby* is a tragic love story and social commentary on the decadent lifestyle of the wealthy during the Jazz Age, a dizzying period of innovation, prosperity, and changing social mores immediately following the first world war.

Through the eyes of narrator Nick Carraway, a Midwestern native out

of place among the Long Island elite, we meet his neighbor, young self-made millionaire Jay Gatsby. As Nick and Gatsby become acquainted, Nick discovers that everything about Gatsby—his wealth, his mansion, his decadent parties—is intended for a single purpose, a single dream: to win back the love of Daisy Buchanan, whom he lost years ago.

If you've never read *The Great Gatsby*, or haven't read it since high school, this is the perfect time to join thousands of people in discovering, or re-discovering, the great American novel. We hope the following events here at the library and other places throughout Manchester will inspire and enhance your enjoyment of the book.

## FILM-THE GREAT GATSBY

**Wednesday, March 25th at 1:00 PM  
Auditorium**

As part of our normal Wednesday af-

ternoon at the movies series, we will be showing the 1974 adaptation of the film, starring Robert Redford as Jay Gatsby and Mia Farrow as Daisy Buchanan.

## A SOUNDTRACK FOR THE GREAT GATSBY: MUSIC OF THE JAZZ AGE, WITH PAUL COMBS

**Thursday, April 2nd  
at 7:00 PM  
Auditorium**

Set in 1922, Fitzgerald's novel coincides with the very early days of jazz recording,

a seminal time in American Music. We will examine the lives and music of artists of the era, including James Reese Europe, Fletcher Henderson,

Paul Whiteman, Jelly Roll Morton, Joe "King" Oliver and Ma Rainey. This program is made possible by a grant from the NH Humanities Council.

This jazz concert will be held on Thursday, April 9th at 7:00 PM in the auditorium.

Cooking at home is one of the simplest and yet most effective healthy choices you can make because you can see the ingredients and know what is in each serving you eat. It's a great way to plan and keep track of calories, portion sizes, and nutrients.

Joe Stanislaw, Elliot Hospital's Director of Food and Nutrition, and Marilyn Mills, Licensed Registered Dietitian and Community Outreach Coordinator, entertain and educate audiences with delicious recipes aimed at keeping energy levels high and immune systems strong. The Cook Better! Live Better! program's focus is on healthy alternatives, food safety techniques, food sampling and a live cooking demonstration.
